

BRIT MILA: HOW TO DO

Brit Mila: How To Do: Metzitzah

When doing a circumcision, metzitzah (sucking out some blood) is required. Metzitzah may be done using a pipette or other tube, but the traditional way is by mouth.

NOTE Using a gauze pad for metzitzah is not traditionally done.

Brit Mila: Amount of Metzitzah Blood

There is no minimum amount of blood to draw out for metzitzah: any quantity suffices.
