HOW LONG SHIV'A (AND SHLOSHIM) LASTS

Duration of Shiv'a (and Shloshim)

<u>Shiv'a</u> lasts seven days. <u>Shloshim</u> lasts 30 days, beginning with Day 1 of <u>shiv'a</u>. There may be some exceptions if *shiv'a* occurs before or during festivals.

NOTE Any part of the first day is considered to be one full day. On the final day after *shacharit*, the mourners finish *shiy'a*, so *shiy'a* can actually last as little as 5 ½ calendar days.
