

# JEWISH FESTIVALS: COOKING

## JEWISH FESTIVALS: EXISTING FLAME

### Jewish Festivals: Cooking from an Existing Flame

You may cook food on all Jewish festivals (except Yom Kippur or when they coincide with Shabbat) as long as the fire, oven, or other cooking appliance:

- Has been on since before the Jewish festival began, OR
- Is lit during the Jewish festival from an existing flame, such as from a pilot light or yahrzeit candle lit before the Jewish festival began.

## JEWISH FESTIVALS: ASKING NON-JEW TO TURN ON A STOVE OR OVEN

### Jewish Festivals: Asking Non-Jew To Turn on a Stove or Oven

You may directly ask a non-Jew to turn on a stove or oven for you.

**NOTE** Be careful about bishul akum problems if a non-Jew will then be cooking food for Jews on that stove or oven.

## JEWISH FESTIVALS: ADJUSTING STOVE/OVEN TEMPERATURE CONTROLS

## JEWISH FESTIVALS: DIGITAL-DISPLAY DEVICES

### Digital-Display Ovens and Stoves on Jewish Festivals

You may not adjust digital-display ovens and stoves (and also refrigerators or other electronic devices) on Jewish festivals unless they were designed for Jewish festival use.

## JEWISH FESTIVALS: RAISING/LOWERING FLAMES/HEAT

### Jewish Festivals: Raising Flames/Heat

On Jewish festivals, you may adjust (analog-only) temperature controls of gas and electric stoves and ovens UP when the heating element is ON, as verified by an indicator light or some other means.

### Jewish Festivals: Lowering Flames/Heat

On Jewish festivals, you may adjust (analog-only) temperature controls of gas and electric stoves and ovens DOWN but ONLY to prevent the food's getting overcooked or burnt (not for convenience or to save money). One permitted way to lower a burner temperature is to put a pot of water on the burner and lower the flame so the water does not boil away (but you must use some of the heated water during the holiday!).

**NOTE** For an electric stove or oven, you may only adjust the temperature DOWN when the heating element is OFF, as shown by an indicator light.

**NOTE** An analog control used on Jewish festivals must allow continuous changes to the temperature: if an analog control has discreet settings, it may not be used on Jewish festivals!
