

SHABBAT: DOCKING

Shabbat: Docking before Sunset Friday

If your ship docks before sunset on Friday, you may get off on Saturday. Techum Shabbat is measured from the boat.

Shabbat: Docking after Sunset Friday

If the ship was not yet docked at sunset on Friday, you must stay on board during Shabbat.

Shabbat: Moored before Friday

If the ship was moored (anchored to the sea bottom without being connected to dry land) in shallow water before sunset on Friday, you may wade to shore as long as:

- You don't get your clothes wet, and
- You dry off your legs before walking on dry land.

You may not carry anything with you.
