Tzitzit: For What To Check

Torn
In checking *tzitzit*, determine:

- Are any loops torn?
- Are 8 strings visible on each corner?

If you cannot see 7 strings due to one or more having been torn off, consult a *rabbi*.

Tangled
There is no problem if *tzitzit* are tangled. However, to untangle them:

- Is a superior way to fulfill the *mitzva*, and
- Allows you to easily check them to see if there are 8 *tzitziyot*.

Frizzy
If any *tzitziyot* are so frizzy that the individual *tzitziyot* cannot be distinguished, they are invalid (*pasul*).

NOTE To prevent frizziness during laundering, wrap the *tzitziyot* tightly in a rubber band before drying them in a dryer, or hang them to dry.

NOTE

- If the hanging end of a *tzitzit* string breaks below the lowest knot, the string is *kosher*.
- If more than one string breaks, or if one string breaks above the lowest knot, consult a *rabbi* since the *tzitzit* may not be *kosher*.
