

Eating before Jewish Festival Midday

As on Shabbat, don't fast on Jewish festivals (except Yom Kippur!) past halachic midday.

- If you will not finish shacharit before halachic midday, you should eat or drink earlier in the day, even before you begin shacharit—water can be sufficient for this purpose.
- If you will finish shacharit, but not musaf, by halachic midday:
 - Finish shacharit,
 - Make kiddush,
 - Eat some mezonot, and then
 - Return to say musaf.
