Chanuka: Candles: Place Anywhere

You may place *Chanuka* candles anywhere (but they should be lit wherever you are staying). Outside of *Eretz Yisrael*, it is customary to place them by a window, ideally facing the street.

NOTE Consult a *rabbi* as to whether candles should be lit inside an aquarium or other box as is sometimes done in Israel, since the candles should not be lit in a place where the wind would blow them out if not for the box around them.
