

Chanuka: Candles: Place Anywhere

You may place Chanuka candles anywhere (but they should be lit wherever you are staying).
Outside of Eretz Yisrael, it is customary to place them by a window, ideally facing the street.

NOTE Consult a rabbi as to whether candles should be lit inside an aquarium or other box as is sometimes done in Israel, since the candles should not be lit in a place where the wind would blow them out if not for the box around them.
