Kashrut: Dairy/Meat: Waiting between Eating: Neutral/Pareve D or DE after Meat

If you can definitively ascertain that a food is or is not *dairy* from the ingredient list, you may rely on it.
However, many food additives or ingredients that are *dairy* do not contain the word “*milk*" or “*dairy* ” (for example, *dairy*-based flavorings or *dairy* derivatives such as whey or casein/sodium caseinate).

SITUATION	Neutral/*pareve* food marked “D” or “DE” (“*dairy* equipment”) has no *dairy* ingredients (or the *dairy* ingredients constitute less than 1/60 of the food's volume.)
NOTE	This does not get measured by weight.
WHAT TO DO	You may eat the food: • Immediately after eating meat foods, but • Not together with the meat food.
SITUATION	Genuine *dairy* constitutes more than 1/60th of the volume of the processed food.
WHAT TO DO	You may not eat the food with, or immediately after, the meat food.
