"Stretching Out" Echad in Shema

Stretch out the first line of the *shema* by pausing after saying "*echad*" and before saying *Baruch shem kevod malchuto l'olam va'ed*.

NOTE

- It is incorrect to stretch out the "*chet*" + vowel sound *(chaaaaaad*).
- It is incorrect (and much worse) to say a vowel sound after the "*dalet*" *(echadihhh!)*, since that changes the word and by doing so, you are not saying the *shema*.
- The *"dalet"* stops the sound and should not be pronounced as a syllable.
