Shabbat Ends at Dark

You may not end *Shabbat* before dark (appearance of three medium-size stars--*tzeit ha'kochavim*).

When Is Dark

Shabbat (and *Jewish festivals*) ends at “dark”: when three medium-sized stars are visible overhead.

NOTE To find medium-sized stars, look for stars to appear in the west—those will be large stars. When large stars appear in the west, medium-sized stars should be visible overhead.

If you are in a place where the sun sets but the sky will not get dark any time that evening, ask a *rabbi* what to do.
