Transferring Object from Domain to Domain

On *Shabbat* (or *Yom Kippur)*, you may not transfer an object between and among domains unless there is a city *eruv* (which allows carrying within the borders of the *eruv*).

NOTE Domains may be of three types:

- Private Domain *(reshut ha'yachid)*,
- Public Domain *(reshut ha'rabim)*, and
- *Carmelit*.
