Transferring Object from Domain to Domain

On <u>Shabbat</u> (or <u>Yom Kippur</u>), you may not transfer an object between and among domains unless there is a city <u>eruv</u> (which allows carrying within the borders of the <u>eruv</u>).

NOTE Domains may be of three types:

- Private Domain (reshut ha'yachid),
- Public Domain (reshut ha'rabim), and
- Carmelit.
