Amount of Gap in Eruv Border

Eruv walls must total more than 50\% of the *eruv* border on each side, so that most of the expanse of the *eruv* is enclosed, either by an actual wall or by the form of a doorway (*tzurat ha'petach*), with no gate or gap over 10 *amot* (about 16' 8”, or 5 m) wide.

NOTE In order to count as part of a border for a private domain, any doorway, gateway, archway, etc., must be intended to be a doorway, gateway, archway, etc.--and not there merely for decoration or function (as in supporting something above).
