

## After-Blessings (Bracha Achrona): Changing Location: Food within View

**SITUATION** You eat one item outdoors, then eat food from another category inside your car which is within view of where you ate the first food.

**WHAT TO DO** You may say the after-blessings for both foods while in your car (or both outside of your car), even if it is a food that normally would require you to return to the place at which you ate it.
